

Equal Opportunity Employer/Program • Under Titles VI and VII of the Civil Rights Act of 1964 (Title VI & VII), and the Americans with Disabilities Act of 1990 (ADA), Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975, the Department prohibits discrimination in admissions, programs, services, activities, or employment based on race, color, religion, sex, national origin, age, and disability. The Department must make a reasonable accommodation to allow a person with a disability to take part in a program, service or activity. For example, this means if necessary, the Department must provide sign language interpreters for people who are deaf, a wheelchair accessible location, or enlarged print materials. It also means that the Department will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance if at all possible. To request this document in alternative format or for further information about this policy, contact the ADA Coordinator at 602-542-4264; TTY/TDD Services: 7-1-1.

LIFESPAN RESPITE CARE PROGRAM

What is Lifespan Respite Care?

Lifespan Respite Care is a coordinated approach that offers community-based respite care services for family caregivers of adults or children with special needs. Respite care provides short-term care and a period of relief or rest for the caregiver. Services can be provided in the form of in-home respite care or appropriate daycare services when available.

What are some of the benefits?

The Lifespan Respite Care Program is a supportive caregiver service that can help alleviate caregiver stress, helps caregivers to maintain their own identity by allowing them time to focus on themselves, and typically can prevent or delay expensive and unwanted out-of-home placement for care recipients. Lifespan Respite Care can also provide comfort to the care recipient, knowing that their caregiver can take a break when needed.

Who can receive services?

The Lifespan Respite Care Program is caregiver-focused and directed to primary caregivers of individuals who do not currently qualify for other publicly funded respite services. The following are examples of who might qualify for services through the program:

- ✓ Caregivers of persons who are seriously or terminally ill, who do not currently qualify for hospice care.
- ✓ Caregivers of persons under 60 who have significant functional impairments, but are not eligible for disability services.
- ✓ Caregivers of persons with early cognitive deficit resulting in functional impairment, who have not yet received a “likely” diagnosis of dementia.
- ✓ Grandparents or relative caregivers less than 55 years of age caring for children 18 and younger.
- ✓ Caregivers of veterans not qualified for respite services from the Veteran’s Administration.

Are services based on income?

Although income is not a disqualifying factor, services will be targeted to those individuals in greatest economic and social need. Because funding is limited and in order to offer respite to the maximum number of caregivers, cost sharing will be applied to available services. Cost sharing will be based on the care recipient’s household income, beginning at 250% above Federal Poverty Guidelines. Information about these federal guidelines is available at this website:

<http://aspe.hhs.gov/POVERTY/08poverty.shtml>

If you are the primary caregiver of a family member or loved one and you feel like you need a break and don’t know how to make it happen, the Lifespan Respite Care Program is there to assist you.

Caregivers should contact their local Area Agency on Aging for more information:
