# Performance Measurement

## Purpose

- Performance measurement focuses on whether a program has achieved its objectives, expressed as measurable performance standards. (*Performance Measurement & Evaluation*, GAO-11-646SP, [available at: http://www.gao.gov/assets/80/77277.pdf](http://www.gao.gov/assets/80/77277.pdf))

## Considerations: Performance measurement....

- Is directly related to program goals and objectives
- Measures progress of the activities quantitatively
- Is not exhaustive
- Provides a temperature reading – it may not tell you everything you want to know but provides a quick and reliable gauge of selected results
