Lifespan Respite Program
Data Collection Tool Pilot Discussion

Welcome!
Come in. Take a seat.
Think about your response to this question:
If your state Lifespan Respite team were to compete on America’s Got Talent, what would you choose for your talent and why?
Agenda

- Introductions and Overview
- Key Findings from Initial Submissions
- Ease and Burden Results
- Next Steps
The Lifespan Respite Data Collection Tool provides ACL more specific data than what is currently collected in the semi-annual reports. It also supports your program monitoring efforts! Thank you for being a part of this pilot.

Stakeholder Involvement

• The most involvement from family caregivers is:
  – attending coalition meetings
  – promoting Lifespan Respite awareness
  – contributing in-kind resources to support Lifespan Respite
  – providing/facilitating Lifespan Respite.
Stakeholder Involvement

• Major contributors to promoting Lifespan Respite awareness are:
  – family caregivers
  – private health and long-term sector (hospitals, medical provider, home health agencies, etc.)
  – ADRCs
  – education community
  – private sector businesses and employers
  – private, nonprofit children’s, aging and disability groups
  – state/local government agencies (other than grantee agency).
Lifespan Respite Funding:
1068 Caregivers Received Planned Respite

- **Average funding for indirect or direct respite:** $167,610
  - Range across 6 states is $56,810-$288,980
  - Funding came mainly from state and other federal resources or a foundation

- **Average amount of direct respite services paid for with mini-grants, contracts, or vouchers:** $58,360
  - Range across 7 states is $11,250 - $189,980

---

**Section 2, A:** Financial contributions, including cash and in-kind equivalents, received for direct or indirect services. Put a dollar amount in the blue-shaded fields.

Enter the amount of funding received for each category. Funds must be for Lifespan Respite grant activities. Funds must have been received during this reporting period. There is no need to identify each source of funding, just the total dollar amount.

Count funds that flow through the LR grantee or primary partners that the LR grantee facilitated for Lifespan Respite activities. Estimate the monetary equivalent of in-kind goods or services. For example, the in-kind dollar amount of an hour of respite provided by a volunteer should be based on what it would cost for a paid provider of the same service. You may not be aware of all funds, but as time progresses, the Lifespan Respite Grantee will become aware of more.

Training and Marketing

Training/Workshop/classes provided by LR Grantee or partner on their behalf.
* Training must be related to respite.
* Training may have been held in partnership with others.
* Counts of attendees may be duplicated. (An attendee might attend multiple events.)
* A keynote presentation at a conference would not count as a training. A workshop on a topic related to respite, such as, “how to choose a respite provider”, or “identifying funding sources for respite” or ongoing classes would count as trainings.

- Average is 2.5 hours
- Range is from 30 minutes to 4 hours
Menti Question

Does the average time spent collecting and entering data seem achievable for future submissions?

Go to www.menti.com and enter code: 20 43 82
Next Steps

Pilot states to:
• Continue to submit the data collection tool semi-annually
• Modify existing processes to support data collection and submission process
• Reach out for support from ACL, as needed

ACL and Lewin to:
• Begin process of obtaining approval for wider use of the data collection tool
• Identify data collection tool prototype development specifications
Menti Question

If you could change one thing about the data collection tool that would make it better, what would it be?
