At any given time 219,000 Nebraskans are serving as caregivers for a friend or family member who has a health problem, long term illness or disability. Those caregivers provide over 200 million hours of care. This translates into an economic value of $2.2 billion.

In a 2011 survey, AARP Nebraska asked caregivers what type of assistance would be most helpful:

- 72% of respondents said that being able to get information about available resources for caregivers would be extremely or very helpful.
- 71% said that assistance in completing government forms and applications would be extremely or very helpful.

Monthly meetings are streamed live on our Facebook page: www.facebook.com/NebCaregiverCoalition

If you are interested in convening a local caregiver roundtable in your community, or in assisting the efforts of the Coalition, please contact Suzy Campbell at (402) 802-2309 or email us at NebraskaCaregiverCoalition@gmail.com
MISSION:
To increase awareness, education, and statewide support for caregivers.

WHO ARE CAREGivers?
Families and friends are the backbone of Nebraska’s care system, and at some point in our lives each of us will likely take care of somebody we’re close to who needs help with everyday activities.

Caregivers are individuals who provide assistance with daily living skills for older Nebraskans and for persons of all ages with special needs. For example, adult children who care for aging parents, a spouse caring for a significant other with Alzheimer’s, parents of a child with a disability, and professionals who assist with daily living skills.

Becoming a family caregiver is a life changing experience. Caring for a loved one can be isolating and stressful. The Nebraska Caregiver Coalition hears you and wants you to know you’re not alone.

RESpite
Have you heard about respite? If you are a caregiver and need someone to help out while you take a break, call the Nebraska Respite Network at:

1-866-RESPITE (737-7483)

The Nebraska Caregiver Coalition was formed in 2013 to raise awareness and support for caregivers.

In the past, we have advocated for such policies as: Paid family medical leave for caregivers, Caregiver tax credits, Funding for respite services, and Better provision of information to caregivers.

We invite other organizations and individuals with an interest in caregiving issues to join us!

GOALS:
• Building a network for caregivers across the lifespan to share ideas, experiences, and needs.
• Hosting public awareness and recognition events.
• Working to have policies and legislation developed or enhanced to meet the needs of caregivers.
• Provide resources & information to caregivers and their loved ones through Days of Caring events hosted statewide.
