

### Nebraska Lifespan Respite Caregiver Survey

Welcome to the Nebraska Lifespan Caregiver Survey! Respite is planned or emergency care provided to a child or adult with special needs in order to provide temporary relief to family caregivers who are caring for that child or adult. Your feedback and participation in completing this survey is appreciated and vital. Results from the survey will be shared with the Nebraska Department of Health and Human Services as part of an overall evaluation through the University of Nebraska Medical Center/Munroe Meyer Institute. Your participation and completion of the survey is appreciated and could help to improve the current system. The survey should take about 15 minutes to complete. At the conclusion of the survey, you will have the option of providing contact information for a possible incentive (\$25 gift card). Thank you!
