

Respite Supplemental Questions

The next five questions are being collected as part of the statewide respite evaluation through the University of Nebraska Medical Center in partnership with the Department of Health and Human Services and the Lifespan Respite Subsidy Program. The evaluation team is looking to gather information on additional health outcome data and impact on employment due to family caregiving responsibilities. Your answers are an important part of the evaluation. These questions are voluntary and you may choose to not answer any or all of them.
